

SPS-S030A1

2-way Indoor Powered Speaker (30 watts per channel)

The ABtUS **SPS-S030A1** is a simple Powered Speaker with an output stereo at 2 x 30 watts that is designed to deliver quality stereo audio amplification. It is an ideal solution for classroom and small meeting room installations.

The ABtUS SPS-S030A1 speaker will go to standby mode within 60-90 seconds if there is no audio source. It resumes operation when it detects an audio input.

Features

- Compact and easy to install
- Comes with simple Volume, Bass & Treble controls
- Perfect for small room audio amplification
- Eco energy saving
- Automatically detect audio signal and switch the unit to standby when no signal is detected after some time.
